Subject: Submission of Internship Report on "Software Developer Intern at OCTAGRAM LTD."

Dear Sir,

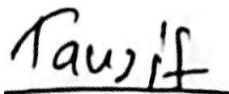

I trust this letter finds you in good health. I am writing to formally present my internship report titled "Software Developer Intern at OCTAGRAM LTD," as a requisite for completing my internship with your esteemed organization.

I am profoundly grateful for the opportunity to have been a part of OCTAGRAM LTD. This report encapsulates a comprehensive overview of my internship journey, detailing my tasks, accomplishments, and key learnings during my tenure at OCTAGRAM LTD.

I wish to extend my sincere gratitude to Touhid Sajjad sir for his invaluable guidance and support throughout my internship. Their mentorship has played a pivotal role in shaping my understanding of software development. The exposure to real-world projects has equipped me with practical skills that I am confident will be indispensable in my future career endeavors.

I am genuinely thankful for the enriching experience gained at OCTAGRAM LTD. I appreciate the opportunities provided, and I eagerly anticipate applying the knowledge and skills acquired during my internship in my future pursuits.

Yours sincerely,

Tausifur Rahman

ID: 20-42763-1

ACKNOWLEDGEMENT

First of all, I would like to thank almighty Allah, for his grace in accomplishing my internship report timely.

I would like to express my gratitude to the **Faculty of Science & Technology** to keep internship credit in the curriculum of the graduation program and give me a scope of tasting the flavor of industry-oriented tasks and the field of work with my interest. I am also grateful to the **Faculty of Science & Technology & Office of Placement & Alumni**, AIUB to arrange an opportunity for choosing an own interested organization and complete internship there.

I extend my sincere gratitude to **TOUHID SAJJAD**, Senior Developer, at *OCTAGRAM LTD.* for his generous support, invaluable guidance, and encouragement throughout my internship. HIS assistance and mentorship were pivotal to the success of my internship journey.

I am deeply grateful to my academic supervisor, **MD. Akinul Islam Jony**, Associate Professor, Department Head of AIUB, for his unwavering support, guidance, supervision, instructions, and advice. His encouragement has been instrumental in ensuring the smooth progression of my internship this semester.

1. INTRODUCTION

Internships serve as a vital bridge between theoretical learning and practical experience within bachelor's programs. They enable students to apply academic concepts to real-world scenarios, offering a firsthand encounter with the dynamics of professional environments. Recognizing their significance, American International University-Bangladesh (AIUB) actively promotes internships as opportunities for students to enhance their future careers. Crucially, internships shape students' career paths, enhancing their employability, honing their skills, and giving them a competitive edge in the job market. Moreover, internships facilitate professional networking, paving the way for potential job prospects. AIUB, understanding the pivotal role of internships, offers year-round internship programs, ensuring students acquire valuable experience for their future endeavors in the professional realm. As a Computer Science and Engineering student at AIUB, I embarked on an internship as a software developer intern at OCTAGRAM LTD. during the spring 2023-2024 semester. This internship provided me with invaluable hands-on experience in software developing in real-time scenarios, equipping me with the skills and knowledge necessary to excel in my future career. Throughout my internship, I gained proficiency in real-time software function implementation as customer requirement along with expertise in billing management-related tasks. These practical experiences have enriched my understanding of the industry and prepared me to seamlessly transition into a professional role. As I approach the completion of my bachelor's degree, I am confident that the insights and skills gained through my internship will prove instrumental in shaping my future career trajectory. I am eager to apply my newfound knowledge and experience to make meaningful contributions in the dynamic field of computer science and engineering.

1.1 . Rationale:

The motivation behind this report stems from a genuine passion for software development and a keen desire to bridge the gap between theoretical knowledge and practical application. Its significance lies in reflecting upon the transformative experience garnered during my internship at OCTAGRAM LTD. as a software developer. This internship afforded me a priceless opportunity to immerse myself in the dynamic realm of software development, refining my skills and acquiring insights pivotal for my professional advancement.

Approaching this internship with fervent enthusiasm for software development, I eagerly embraced real-world projects, eager to gain hands-on experience. The report serves as a

platform to articulate the profound impact of this experience on shaping my understanding of software development practices and methodologies.

The internship at OCTAGRAM LTD. provided an enriching environment for learning, enabling me to collaborate with seasoned professionals on projects that both challenged and enhanced my skill set. Through this report, my objective is to document the practical lessons learned and highlight my evolution as a software developer throughout the internship duration.

The insights gleaned during the internship resonate deeply with my academic pursuits in computer science, offering real-world context to the theoretical concepts acquired in the classroom. This report serves as a conduit to bridge academic learning with practical application, underscoring the relevance of my education in preparing me for a successful career in software development.

1.2 . Background:

OCTAGRAM LTD. leads the charge in cybersecurity, software development, and web solutions, serving as a trusted guardian for businesses navigating the complexities of the digital realm. With a foundation rooted in innovation, OCTAGRAM LTD. offers a diverse range of services tailored to meet the unique needs of each client. From pioneering cybersecurity measures to transformative software and web development, OCTAGRAM LTD'S expertise is unparalleled.

At the heart of OCTAGRAM LTD'S success lies its team of dedicated professionals, each bringing years of experience and a wealth of knowledge to the table. Collaborating seamlessly, this dynamic team ensures the success of every project undertaken, no matter the challenge. Their multidisciplinary approach enables them to deliver comprehensive solutions that exceed expectations.

Beyond technical prowess, OCTAGRAM LTD sets itself apart through its unwavering commitment to client satisfaction. Fostering trust, transparency, and exceptional service, OCTAGRAM LTD prioritizes the establishment of long-term partnerships with its clients. This dedication to building enduring connections not only distinguishes OCTAGRAM LTD in the market but also solidifies its reputation as a dependable and innovative leader in cybersecurity and software solutions.

Fig 1: **Logo OCTAGRAM LTD.**

1.3 . **Objectives:**

At OCTAGRAM LTD, our mission is to drive the growth of our clients' businesses through innovative design and development, delivering top-notch solutions that set new standards in quality and provide tangible competitive advantages worldwide.

Our primary objective is to continually evolve and establish ourselves as a premier player in the fiercely competitive global market. Thankfully, we've assembled a team of experts who bring together a wealth of experience and exceptional talent, capable of leveraging their collective expertise to propel your organization forward.

Our core goal is to perpetually evolve and emerge as a frontrunner in the competitive global market. Fortunately, we've curated a team of professional's adept at harnessing their combined experiences, with each member showcasing exceptional talent ready to propel your organization towards success.

These are a some of the client business has served:

2. ACTIVITIES

This section of my report outlines the primary responsibilities I undertook during my internship. To ensure timely completion of tasks, adhering to a structured activity schedule was imperative. This meticulously planned itinerary facilitated optimal utilization of our limited time, playing a pivotal role in the success of the internship program. Over the course of the internship, I gleaned valuable insights into effective time management techniques and strategies for task allocation. Interns are provided with a comprehensive understanding of organizational practices and the essential elements contributing to efficient operations.

2.1. Work Load

During my time as a software developer intern at OCTAGRAM LTD, I assumed various responsibilities aimed at refining my skills and contributing to team projects. Working closely alongside senior developers, I actively engaged in coding tasks, debugging sessions, and software testing initiatives. Through hands-on exposure to the company's development tools and methodologies, I acquired invaluable insights into contemporary software engineering practices. Furthermore, participating in code reviews and attending team meetings deepened my understanding of the collaborative ethos inherent in software development within the organization. In summary, my internship at OCTAGRAM LTD played a crucial role in enhancing my technical competencies and fostering a deeper appreciation for the complexities of software development in a professional environment.

2.1.1 My Projects at OCTAGRAM LTD.

Project 1: At OCTAGRAM LTD my first project was vCard. This software can generate own virtual card. This project is created for the office which will help them for providing virtual card to the employee.

First of all, my main responsibility was to review and understand the project functions, specifications and user stories to gain a clear understanding of the expected the behavior of the software. Then implement the functions or feature as per the requirement.

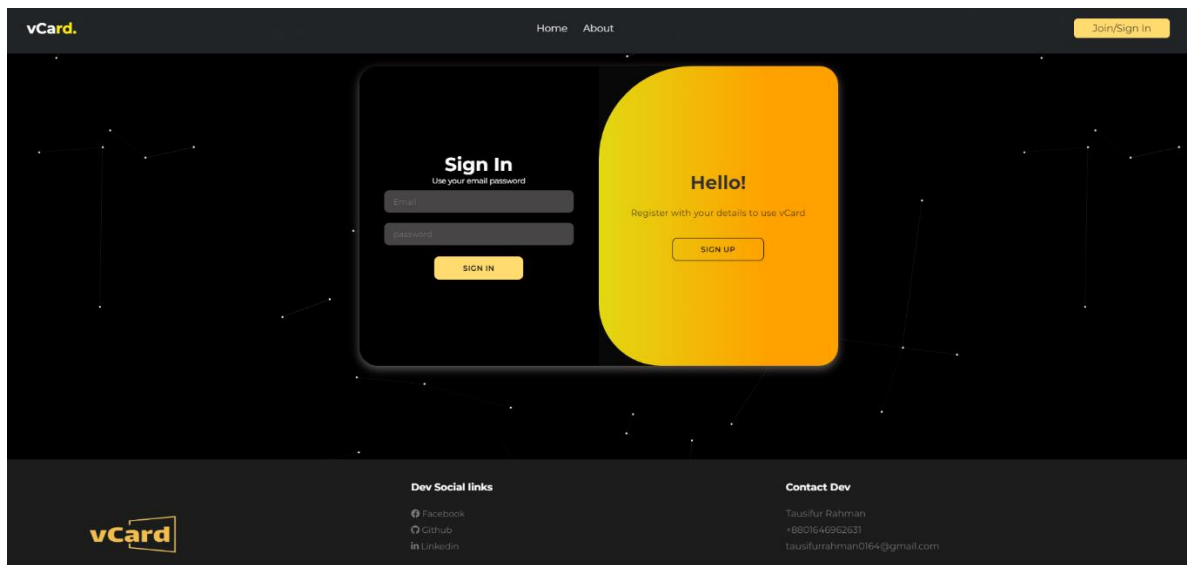

Fig 4: vCard (Login Section)

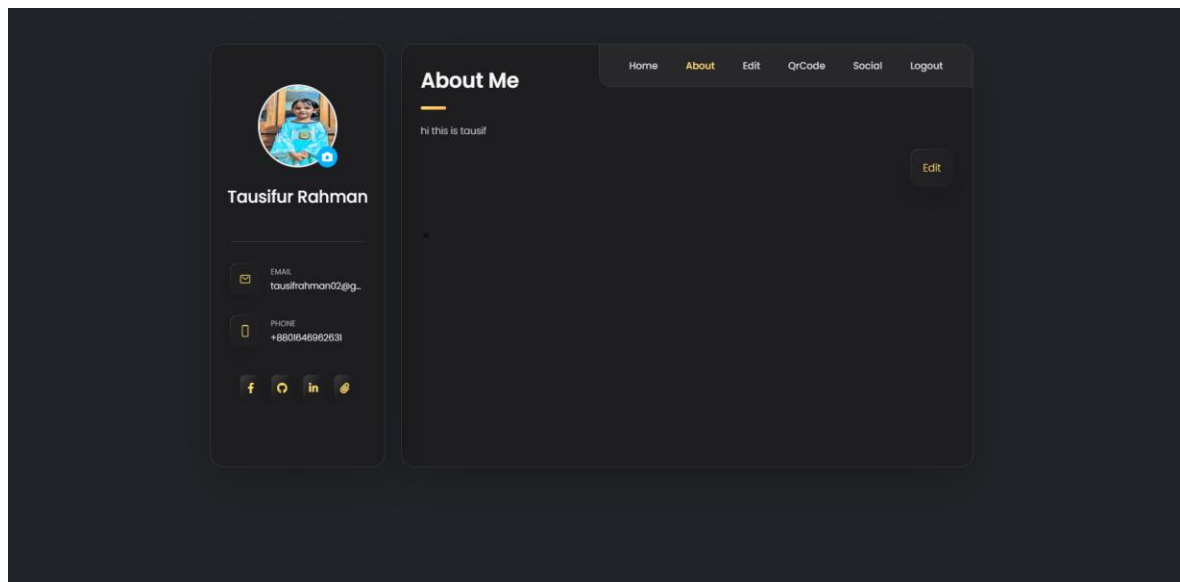

Fig 5: vCard (Profile Section)

Project 2: My second project was OCTAGRAM tool. It's a search tool for OCTAGRAM LTD and it can search through many websites just in one click.

Basically, I worked on this project to develop new feature and also for bug fixing according to the customer requirement. I also worked as a support team member for this project.

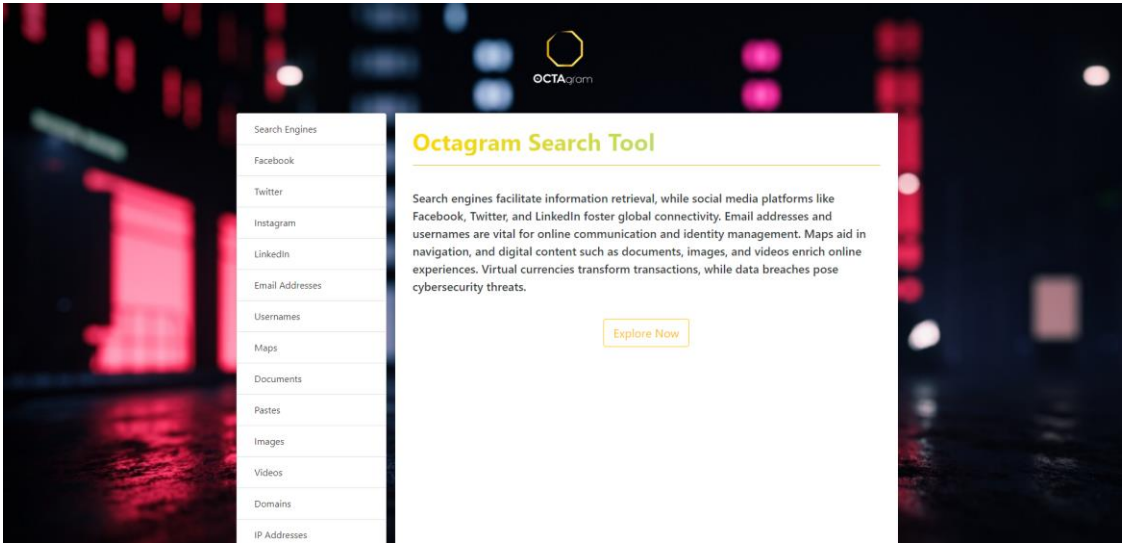

Fig 6: Homepage (OCTAGRAM tools)

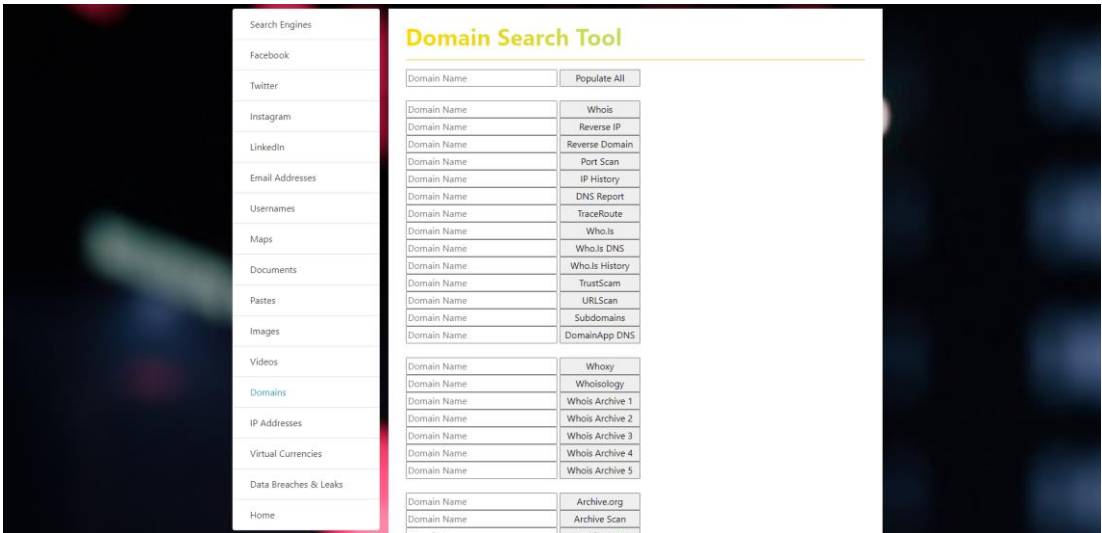

Fig 7: Domain Search (OCTAGRAM tools)

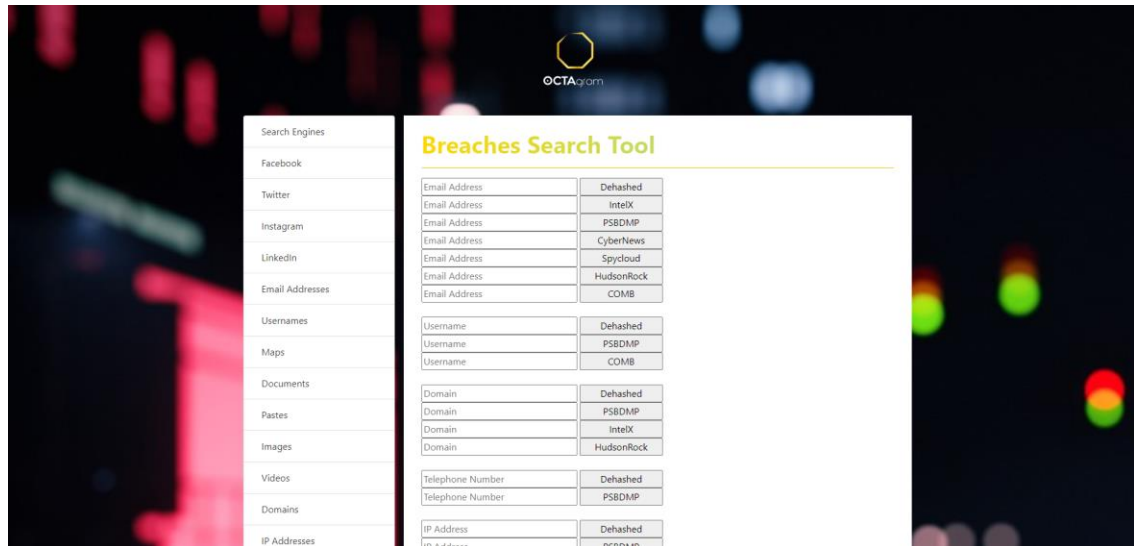

Fig 8: Breaches Search (OCTAGRAM tools)

Project 3: My third project was CheckMyLeak. This project aims to check the leaks of email addresses. Users can check their leaks and data breaches through this website. I've crafted the frontend page for the project.

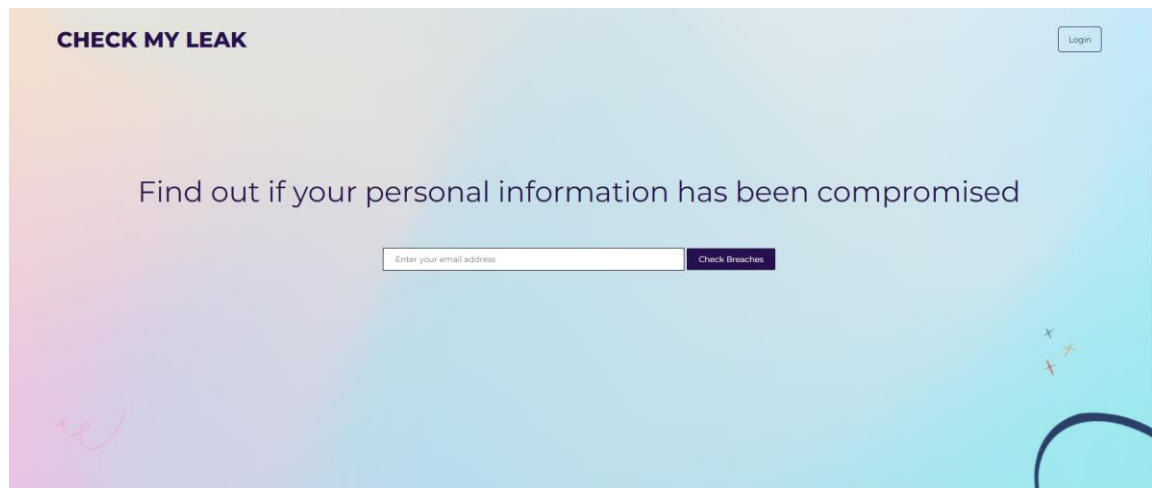

Fig 9: CheckMyLeak (Homepage)

2.1.2. Time Maintenance

My office hours are from 10:00 AM to 6:00 PM. Employees are required to adhere to strict rules regarding deadlines, start times, and lunch breaks. Arriving late is strictly prohibited at OCTAGRAM LTD, but the company takes great care to ensure that its employees are never bored or unmotivated.

2.2 Organization-wide:

Functioning within a dynamic environment, OCTAGRAM LTD. oversees numerous concurrent projects and training endeavors. This encompasses tasks such as UI development, feature coding, and comprehensive testing. These initiatives have notably enhanced internal processes, communication channels, and overall productivity within the department. Through my involvement in these endeavors, I actively participated in team meetings and collaborated closely with a pivotal project team, gaining invaluable insights into project intricacies. Throughout my internship, I had the privilege of working alongside a dynamic and innovative team. I eagerly anticipate applying the knowledge and skills acquired to future projects. As I transition into the role of Trainee, I am enthusiastic about leveraging my internship experience to contribute to the company's ongoing success and expansion. My internship provided practical exposure to various technologies through hands-on project work, fostering collaboration with fellow project team members.

2.3 Other relevant activities:

During my internship at OCTAGRAM LTD, I proactively participated in extracurricular activities that enriched my experience beyond my primary duties. Regular engagement in team meetings facilitated effective communication regarding project progress, challenges, and potential resolutions. These interactions not only enhanced my communication skills but also provided valuable learning opportunities from seasoned team members. In addition to my core responsibilities, I assisted colleagues in overcoming technological hurdles, fostering a spirit of teamwork. I also expanded my involvement beyond the development team by seeking feedback from customer service professionals, gaining insights from end users. This approach broadened my understanding of end users' perspectives, influencing my design and functionality decisions.

Active involvement in extracurricular endeavors not only bolstered my technical proficiency but also refined my communication abilities. This holistic experience deepened my comprehension of how software engineering significantly contributes to the overall success of the company.

3. CONSTRAINTS/CHALLENGES

Issues and Problems encountered and identified during the internship affiliation with the Organization/company.

3.1 Identified/Observed in the Organization

Embarking on my first professional journey in an unfamiliar environment presented a blend of challenges, excitement, and gratification. The welcoming atmosphere of the organization, coupled with the provision of a dedicated workstation equipped with a personal computer, greatly facilitated my transition into this new workplace. However, being a newcomer to the professional realm, I initially grappled with comprehending my job responsibilities.

Fortunately, the collaborative attitude, genuine support, and amiable demeanor exhibited by my colleagues and team members proved invaluable in surmounting these obstacles. While my supervisor served as my primary mentor, I also sought advice from other employees when needed, fostering a sense of camaraderie and facilitating shared learning experiences.

3.2 Academic Preparation

After completing my internship, I became aware of the significant gap between the theoretical knowledge gained in university classes and the practical obligations encountered in the professional realm. While I was confident in my academic abilities and knowledge base, I recognized that they would not be enough to manage the complexity of the corporate world. I am grateful to American International University-Bangladesh (AIUB) for providing me with a precious opportunity to get firsthand knowledge of the competitive terrain and professional requirements of today's business.

3.3 Personal/Professional Skills

Mastering professional abilities while still in school is an impossible goal. University courses are concerned with teaching theoretical knowledge, creating a gap between the developments of critical professional competencies. Despite the high quality of our curriculum, I noticed a gap between the emphasis on professionalism in the corporate world and the lack of it in our academic preparation. When I started the internship, I discovered that I lacked professional skills, which hampered my ability to interact successfully with experienced professionals and execute tasks efficiently. Applying theoretical knowledge to real-world circumstances proved difficult, especially when presented with new technologies. However, I stayed unafraid and worked hard to close the gap via constant practice self-learning.

4. ACQUIRED KNOWLEDGE

4.1. Consequences to Organization

My internship at OCTAGRAM LTD. significantly contributed to the organization's success. Serving as an excellent platform for learning and skill development, it provided me with invaluable experience in new technologies, tools, and best practices. Although the duration of my internship was short, the knowledge acquired over these three months will play a crucial role in shaping my future career. Moreover, my dedication to continuous learning and skill enhancement will undoubtedly make me a valuable asset to any organization. This internship offers an exceptional opportunity to gain hands-on experience in the dynamic realm of information and technology.

4.2. Implications to University's Internship Program

I extend my sincere appreciation and heartfelt gratitude to all those who provided unwavering support throughout my internship journey. I am profoundly thankful to the individuals who offered steadfast guidance and encouragement during my internship at the esteemed American International University-Bangladesh (AIUB) Faculty of Science & Information Technology. AIUB consistently upholds the highest standards of academic excellence, setting itself apart from other universities in Bangladesh. I wholeheartedly commend AIUB for granting me the invaluable opportunity to participate in this internship program a distinctive offering that is regrettably not widely available at most universities in the country. Internship opportunities are not always readily accessible to all students, and some may encounter challenges in securing one. I remain optimistic that the university will continue to provide me with advantageous opportunities to gain hands-on experience in industry-oriented roles aligned with my field of interest.

I am deeply grateful to the Faculty of Science & Information Technology and the Office of Placement & Alumni at American International University-Bangladesh (AIUB) for their unwavering support in facilitating my internship search and enabling me to successfully complete the program at the selected organization.

4.3. Effects on Personal/Professional Skills

During my tenure as a software developer intern, I had the privilege to cultivate a diverse array of personal and professional attributes essential for success in the industry. Through hands-on engagement

and guidance from seasoned mentors, I enhanced my technical prowess, mastering various programming languages, development frameworks, and software tools.

Moreover, collaborating within a team environment refined my communication and collaboration skills, enabling me to effectively liaise with colleagues to tackle complex challenges and deliver top-tier outcomes. I also honed my problem-solving acumen and critical thinking abilities, empowering me to approach issues with ingenuity and originality.

In summary, my internship experience not only enriched my technical expertise but also equipped me with the interpersonal skills and problem-solving capabilities indispensable for a thriving career as a software engineer.

5. CONCLUDING STATEMENTS

5.1. Summary

OCTAGRAM LTD. is a successful company in Bangladesh that works closely with its clients to understand their needs and ensure their satisfaction. I am a member of the software development team at OCTAGRAM LTD, Where I gained hands on experience in software development. I learned how to resolve software problems, how to implement new feature on running software and also fixing bugs or any error on running software. This experience has helped me to learn more about the technical world and my future career goals. I also believe that OCTAGRAM LTD'S procurement process is up-to-date and efficient. They use a variety of methods to procure the materials and services they need and they are always looking for new ways to improve their process. This has allowed them to provide their clients with high-quality products and services at a competitive price.

5.2. Recommendations/Suggestions for Future Strategic Actions

Internships serve as invaluable opportunities for students to gain real-world experience, bridging the gap between academic knowledge and practical applications within their chosen field of study. It is imperative for students to establish connections between their academic coursework and its relevance to real-world scenarios. This correlation enables students to comprehend the practical implications of their theoretical learning and equips them with the necessary skills and insights to thrive in their future careers.

5.2.1. Organization

The internship program holds significant importance for undergraduate students and aspiring job seekers alike. Designed to seamlessly integrate ethical principles and practical application in real-world settings, internships serve as a vital component of both university education and professional development. Throughout the internship experience, students amalgamate their classroom learning with practical training, supplemented by preparatory lectures, case studies, theoretical analyses, and discussions. This holistic approach not only enriches students' academic knowledge but also equips them with invaluable hands-on experience and skills essential for their future careers.

5.2.2. University

University-sponsored internship programs offer numerous advantages to students. To further optimize these benefits, universities should integrate training sessions focused on facilitating a seamless transition from academic knowledge to practical application in professional settings. Distinguished faculty members and alumni with affiliations to multinational corporations could serve as invaluable resources in guiding eligible students toward internship opportunities within the university's network.

Before students embark on internship placements, universities could conduct mock interviews and workshop sessions to help students overcome any shyness and bolster their confidence. Additionally, given the wide array of clubs available at our university, it is advisable for every student to actively engage in at least one club to nurture their personal and professional growth. This proactive involvement in extracurricular activities can significantly contribute to students' holistic development and readiness for future career endeavors.

5.2.3. Personal/Professional

Success in the workplace for any individual, regardless of gender, hinges on a blend of unwavering dedication, a robust sense of responsibility, genuine character, and sharp intellect. Ethical behavior, ingrained as a guiding principle, should extend across all facets of an individual's life. Throughout my internship, I upheld punctuality and showcased a steadfast dedication to ongoing self-enhancement. Through the expansion of my knowledge, I nurtured maturity and self-confidence. Engaging in software development assignments equipped me with the capability to adeptly navigate pressure and handle responsibilities with poise.

Recommendation Letter

13/05/2024

To Whom It May Concern,

I am delighted to write this letter of recommendation for Tausifur Rahman, who is currently working as a Software Developer at Octagram LTD.

During his working period with us, Tausifur Rahman consistently impressed us with his outstanding performance, dedication, and professional demeanor. He quickly adapted to our dynamic work environment and demonstrated a strong aptitude for software development.

He consistently produced high-quality work and showed a remarkable ability. Moreover, he exhibited excellent communication skills and a willingness to take initiative. He was always proactive in seeking out opportunities for improvement and never hesitated to share his insights and ideas with the team.

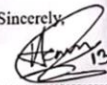

He also proved to be a reliable and dependable team member, consistently meeting deadlines and delivering results that exceeded expectations. His positive attitude, strong work ethic, and eagerness to learn were truly commendable and greatly contributed to the success of our projects.

In summary, I have no doubt that Tausifur Rahman will continue to excel in his future endeavors. He possesses the necessary skills, drive, and commitment to succeed in any professional setting.

I wholeheartedly recommend Tausifur Rahman for any opportunities he may pursue, and I am confident that he will make a significant and positive impact wherever he goes.

Please feel free to contact me at hr@octagram.com.bd if you require any further information.

Sincerely,

MD. Mhamud Hossain Hamim
HR Manager
Octagram LTD

Career Objective:

A frontend web developer and I am dedicated to creating efficient, user-friendly web applications with expertise in front-end using html,css,js and vue js.

Career Summary:

I am currently working in a company for about 6 months, and I am well skilled in the frontend.

Special Qualification:

Frontend web developer

Employment History:

Total Year of Experience: 0.6 yrs.

1. Frontend developer (0.6 yrs.)

(11 Nov 2023 - Continuing)

Octagram Ltd.

Area of Expertise:

Frontend Development (Web) (0.5 yrs.), HTML5CSS3 (0.5 yrs.), Vue JS (0.5 yrs.)

Duties/Responsibilities:

I am handling the frontend part. I worked on various projects where I have used HTML5, CSS3, Bootstrap, SCSS, Tailwind CSS, JavaScript, Vue Js.

Academic Qualification:

Exam Title	Concentration/Major	Institute	Result	Pas.Year	Duration
Bachelor of Science (BSc)	Software Development	American International University- Bangladesh	CGPA:3.36 out of 4	2023	3
HSC	Science	Motijheel Govt. Boy's High School and College	CGPA:4.25 out of 5	2019	2
SSC	Science	Motijheel Govt. Boy's High School and College	CGPA:5 out of 5	2017	1

Training Summary:

Training Title	Topic	Institute	Country	Location	Year	Duration
Full stack web developer	Next js, Nest js, vue Js, JavaScript, Html5, css3, bootstrap, Tailwind CSS, postman, PostgreSQL	American international university of Bangladesh	Bangladesh	Kuril	2023	1
